1. Claims 1-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. The instant claims 1 and 32 recite "wherein the sum of the three isomers in the dicidol mixture is from 90 to 100%". It is unclear what the percentage is based on, e.g. weight, volume, moles, etc. Since the molecular weight of anything present in addition to the claimed dicidols may be different from the claimed dicidols where the percentage is less than 100, a lack of clarity exists. The percentage of claim 2 lacks clarity for the same reasons.

2. Claims 1-37 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

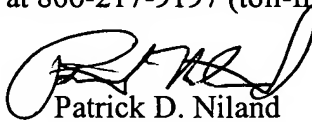

The prior art does not disclose the inventions of the instant claims nor provide rationale for modifying the prior art inventions into those of the instant claims. US Pat. Nos. 4307002 Wagner et al., 6143841 Spittka et al., 6277910 Rassing et al., 4478994 Doerffel et al., 5648410 Hille et al., 5712035 Ohtaka et al., 6930155 Weiss et al., and 6960620 Wenning et al. are representative of the prior art but are only background art.
